## Baillie Gifford Global Alpha Fund First Quarter 2024

### Fund Objective

To produce capital growth over the long term by investing primarily in global equities. Performance will be measured against the MSCI ACWI Index.

### Investment Proposition

The Fund invests in an actively managed portfolio of stocks from around the world with the intention of delivering significantly higher total returns than the MSCI ACWI Index before fees.

We focus on companies which we believe offer above average profit growth and we invest with a long-term (five year) perspective.

The Fund's three dedicated investment managers draw on a combination of their own investment ideas and those of our various investment teams to produce a portfolio that typically holds 70–120 stocks.
