Baillie Gifford Positive Change Equity Fund Fourth Quarter 2024

Fund Objective

The objective is to produce capital growth over the long term by investing primarily in global equities. The Fund also aims to contribute towards a more sustainable and inclusive world by investing in companies that, in the opinion of the Manager, deliver positive change. Performance will be measured against the MSCI ACWI Index.

Investment Proposition

The Fund invests in an actively managed portfolio of 25-50 global high quality growth companies which can deliver positive change in one of four areas: social inclusion and education, environment and resource needs, healthcare and quality of life; and base of the pyramid (addressing the needs of the world's poorest populations). The Positive Change Decision Makers generate ideas from a diverse range of sources. With a focus on fundamental in-house research, the team complete a two stage analysis of all holdings, looking at both the financial and positive change aspects case for each stock using a consistent framework. The output is a high conviction and differentiated portfolio. We aim for a low turnover, around 20% per annum over the long run.
