

Baillie Gifford Sustainable Growth Equity Fund Third Quarter 2024

Fund Objective

To produce capital growth over the long term by investing primarily in global equities which, in the Manager's opinion, demonstrate long-term Sustainable Growth prospects (as defined in the Fund's Investment Policies). Performance will be measured against the MSCI ACWI Index.

Investment Proposition

Sustainable Growth invests in companies which are sustainable in both senses of the word, delivering enduring growth and enduring good. For growth to endure, companies must be resilient to a range of economic and political environments, and capable of achieving a decade or more of profitable growth. To deliver enduring good, they must make a positive difference to society, either through impactful products or services or through influential business practices that inspire wider change.
