

## Baillie Gifford Global Alpha Paris-Aligned Fund

30 November 2024

### Fund Objective

To outperform (after deduction of costs) the MSCI ACWI Index, as stated in sterling, by at least 2% per annum over rolling five-year periods, and aims to have a carbon footprint that is lower than that of the MSCI ACWI EU Paris Aligned Requirements Index.

The manager believes this is an appropriate target given the investment policy of the Fund and the approach taken by the manager when investing. In addition, the manager believes an appropriate performance comparison for this Fund is the Investment Association Global Sector.

There is no guarantee that this objective will be achieved over any time period and actual investment returns may differ from this objective, particularly over shorter time periods.

### Investment Proposition

The Fund invests in an actively managed portfolio of stocks from around the world with the intention of delivering significantly higher total returns than the MSCI ACWI Index. The fund's three dedicated investment managers draw on a combination of their own investment ideas and those of our various investment teams to produce a portfolio that typically holds 70-120 stocks.

The Fund applies a four-stage screening process to negotiate the pathway to net zero. This includes both quantitative and qualitative screens. The Fund strips out companies that generate more than 10% of revenues from the extraction and/or production of oil, gas and thermal coal as well as companies that generate more than 50% of revenues from service provision to those industries. Secondly, we subject our highest emitting holdings to a proprietary 3-question analysis, where we seek to understand the ambitions, mitigation, and appetite of investee company management teams to truly embrace the low carbon transition. Third, we commit to 100% of the portfolio being Net Zero aligned by 2040, and finally, our ongoing active management of the portfolio ensures it delivers on its commitment of maintaining a WAGHGI that is lower than that of the EU Paris Aligned Benchmark.

As well as cash in the bank, this balance includes unsettled cash flows arising from both shareholder flows and outstanding trades. Therefore, a negative balance may arise from timing differences between shareholder flows and security trading, and does not necessarily represent a bank overdraft.

The table displays the primary share classes. Other share classes may be available for those investors who have a separate arrangement. Charges will reduce the value of the investment. Please refer to the Prospectus and Key Investor Information Document for further details.

## Key Terms

**Active Share** is a measure of the Fund's overlap with the benchmark. An active share of 100 indicates no overlap with the index and an active share of zero indicates a portfolio that tracks the index.

**Annual Turnover** is calculated as the sum of the monthly turnover figures for the 12-month period.

**Periodic Performance** is a method of evaluating how a fund is doing over time. It compares a fund's performance in each period to its performance in past periods. It also looks at the performance of the fund to the performance of an index or its peers.

**Discrete Performance** is a method of evaluating the degree to which a fund performs compared against its benchmark on a given date.

**Historic Yield** is based on distributions paid by the Fund in the previous 12 months as a percentage of the mid-market share price, as at the date shown. Investors may be subject to tax on their distributions, however, we are unable to give tax advice. Where we believe the historic yield to be materially unrepresentative, forecast yields have been quoted based on estimated income and expenses.

**IA Sectors** are provided by the Investment Association. These sectors break up the universe of available funds to help investors navigate the large number of available products.

## Additional Fund Information

Sustainable investment labels help investors find products that have a specific sustainability goal. This product does not have a UK sustainable investment label. This product promotes environmental and/or social characteristics but does not explicitly aim to achieve positive environmental and/or social outcomes, which is a key requirement to adopt a label. More details can be found in the product's SDR Sustainability Disclosure Document found within the document section of the website.

The ongoing charge figure may vary from year to year and will exclude the costs of buying and selling assets for the Fund (unless these assets are shares of another fund). The Ongoing Charge Figure (OCF) is at the latest annual or interim period. The OCF may be lower than previous declarations as a result of a revision to how the indirect fees associated with closed-ended investment companies need to be shown. This does not necessarily mean that fund expenses have gone down rather that we have reverted to how they have been calculated until 30 June 2022 to reflect the revised Investment Association's Guidance on Disclosure of Fund Charges and Costs (July 2020, updated January 2022, revised November 2023). Further explanation of all the charges and costs relating to this Fund can be found in the Enhanced Disclosure of Fund Charges and Costs document, which is available through our website, bailliegifford.com. Where the share class has been launched during the financial period and / or expenses during the period are not representative, an estimate of expenses may have been used instead. Baillie Gifford operates a single swinging price for the Fund and, therefore, may apply a dilution adjustment to the price to protect long-term investors from the costs associated with buying and selling underlying investments that result from other investors joining or leaving the Fund. This adjustment will affect relative performance, either positively or negatively.

Turnover is calculated by taking the smaller figure of either total purchases or total sales for the month and dividing it by an average market value. The Annual Turnover is then calculated as the sum of the monthly turnover figures for the 12-month period.

All figures are rounded, so any totals may not sum.

## Target Market

This fund is suitable for all investors seeking a fund that aims to deliver capital growth over a long-term investment horizon. The fund uses screening processes to exclude carbon intensive companies that do not, or will not, play a role in the transition to a low-carbon economy. The investor should be prepared to bear losses. This fund is compatible for mass market distribution. This fund may not be suitable for investors who are concerned about short-term volatility and performance, seeking a regular source of income, and investing for less than five years. This fund does not offer capital protection.

## Risk Warnings

Investment markets can go down as well as up and market conditions can change rapidly. The value of an investment in the Fund, and any income from it, can fall as well as rise and investors may not get back the amount invested.

The specific risks associated with the Fund include:

- Custody of assets, particularly in emerging markets, involves a risk of loss if a custodian becomes insolvent or breaches duties of care.
- The Fund invests in emerging markets where difficulties in trading could arise, resulting in a negative impact on the value of your investment.
- The Fund has exposure to foreign currencies and changes in the rates of exchange will cause the value of any investment, and income from it, to fall as well as rise and you may not get back the amount invested.
- The Fund's share price can be volatile due to movements in the prices of the underlying holdings and the basis on which the Fund is priced.
- The Fund employs carbon screens which means it cannot invest in certain companies. The universe of available investments will be more limited than other funds that do not apply such criteria/ exclusions, therefore the Fund may have different returns than a fund which has no such restrictions.

Further details of the risks associated with investing in the Fund can be found in the Key Investor Information Document or the Prospectus, copies of which are available at [bailliegifford.com](http://bailliegifford.com).
