Calculation of the net gain or loss per share (both realized and unrealized) may not correlate to the aggregate realized and unrealized gains or losses presented in the Statement of Operations due to the timing of sales and repurchases of Class shares in relation to fluctuating market values of the investments of the Fund.

Total investment return is calculated assuming an initial investment made at the net asset value at the beginning of the period, reinvestment of all dividends and distributions, if any, at net asset value during the period, and redemption on the last day of the period.

⁽d) Portfolio turnover rate calculated at Fund level.

 $[\]ensuremath{^{\text{(a)}}}$ Calculated based upon average shares outstanding during the period.

⁽b) Calculation of the net gain or loss per share (both realized and unrealized) may not correlate to the aggregate realized and unrealized gains or losses presented in the Statement of Operations due to the timing of sales and repurchases of Class shares in relation to fluctuating market values of the investments of the Fund.

⁽c) Total investment return is calculated assuming an initial investment made at the net asset value at the beginning of the period, reinvestment of all dividends and distributions, if any, at net asset value during the period, and redemption on the last day of the period.

⁽d) Portfolio turnover rate calculated at Fund level.

^{**} Refer to Portfolio of Investments for further detail.

There were no transfers into or out of Level 3 during the year ended December 31, 2024.

Summary of Unobservable Inputs for Level 3 Investments

The ongoing conflict in Russia and Ukraine has led to significant disruption and volatility in the global stock market. This impacted the Fund in 2022 in terms of suspensions of trading activities on the Russian Stock Exchange as well as suspensions of depositary receipts traded on exchanges outside of Russia. These market conditions have not changed during the year ended December 31, 2024 and as a result, management continue to value all the Russian securities listed in the Portfolio of Investments at \$0 and include them within Level 3.

There were no transfers into or out of Level 3 during the year ended December 31, 2024

Summary of Unobservable Inputs for Level 3 Investments

The ongoing conflict in Russia and Ukraine has led to significant disruption and volatility in the global stock market. This impacted the Fund in 2022 in terms of suspensions of trading activities on the Russian Stock Exchange as well as suspensions of depositary receipts traded on exchanges outside of Russia. These market conditions have not changed during the year ended December 31, 2024 and as a result, management continue to value all the Russian securities listed in the Portfolio of Investments at \$0 and include them within Level 3.

⁽b) Investment was valued using significant unobservable inputs.

^{*} Non-income producing security.

Summary of Unobservable Inputs for Level 3 Investments

The ongoing conflict in Russia and Ukraine has led to significant disruption and volatility in the global stock market. This impacted the Fund in 2022 in terms of suspensions of trading activities on the Russian Stock Exchange as well as suspensions of depositary receipts traded on exchanges outside of Russia. These market conditions have not changed during the year ended December 31, 2024 and as a result, management continue to value all the Russian securities listed in the Portfolio of Investments at \$0 and include them within Level 3.

This report classifies issuers geographically by their country of risk. For compliance monitoring purposes, the Manager retains discretion to consider a number of factors in determining where a particular issuer is located, as described in further detail in each Fund's prospectus.

Fair Value Measurement

The following is a summary of the inputs used as of December 31, 2024 in valuing the Fund's investments carried at fair value:

| Investments in Securities | Level 1 | Level 2 | Level 3 | Total |
|---------------------------|---------------|-----------------|---------|-----------------|
| Common Stocks ** | \$450,700,576 | \$1,598,715,992 | \$0 | \$2,049,416,568 |
| Warrant ** | _ | 0 | _ | 0 |
| Total | \$450,700,576 | \$1,598,715,992 | \$0 | \$2,049,416,568 |

^{**} Refer to Portfolio of Investments for further detail.

There were no transfers into or out of Level 3 during the year ended December 31, 2024.

Summary of Unobservable Inputs for Level 3 Investments

The ongoing conflict in Russia and Ukraine has led to significant disruption and volatility in the global stock market. This impacted the Fund in 2022 in terms of suspensions of trading activities on the Russian Stock Exchange as well as suspensions of depositary receipts traded on exchanges outside of Russia. These market conditions have not changed during the year ended December 31, 2024 and as a result, management continue to value all the Russian securities listed in the Portfolio of Investments at \$0 and include them within Level 3.

Note A — Organization and Accounting Policies

As of December 31, 2024, each fund identified in the table below (each, a "Fund", and collectively, the "Funds") was a series of Baillie Gifford Funds (the "Trust"). The Trust includes one series, Baillie Gifford International All Cap Fund, that is not included in this report. The investment objective of each Fund includes achieving capital appreciation.

For more detail on specific objectives of each Fund and a description of each share class, please refer to the relevant prospectus. The Trust is an open-end management investment company registered under the Investment Company Act of 1940, as amended (the "1940 Act"). The

Trust was organized as a Massachusetts business trust on June 21, 2000, under the laws of Massachusetts. The Trust operates pursuant to the Third Amended and Restated Agreement and Declaration of Trust dated September 20, 2023, as amended from time to time.

At a meeting held on September 24, 2024, the Board of Trustees of the Trust (the "Board") approved and adopted Plans of Liquidation and Termination of Baillie Gifford China A Shares Growth Fund, Baillie Gifford Health Innovation Equities Fund, and Baillie Gifford U.S. Discovery Fund. Baillie Gifford China A Shares Growth Fund was liquidated on October 30, 2024. Baillie Gifford U.S. Discovery Fund was liquidated on November 29, 2024. As further described in Note J — Subsequent Events below, Baillie Gifford Health Innovation Equities Fund was liquidated on January 6, 2025.

The following table is a summary of classes of the Funds with shares outstanding as of December 31, 2024:

Accounting Policies

The Funds are investment companies that apply the accounting and reporting guidance issued in Topic 946 by the U.S. Financial Accounting Standards Board ("FASB"). The financial statements of the Funds have been prepared in conformity with generally accepted accounting principles in the United States of America ("GAAP"). Management is required to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

The following is a summary of significant accounting policies followed by the Funds:

Segment Reporting

In November 2023, the FASB issued Accounting Standards Update ("ASU"), ASU 2023-07, Segment Reporting (Topic 280) — Improvements to Reportable Segment Disclosures, which aims to improve reportable segment disclosure requirements, primarily through enhanced disclosures about segment expenses. The amendments under this ASU are effective for fiscal years beginning after

December 15, 2023 and hence the Funds have adopted this ASU for the year ending December 31, 2024.

Each Fund included herein is subject to Topic 946: Investment Companies and is structured as having a limited purpose by design. Each Fund's sole purpose is to invest to obtain returns from investment income and/or capital appreciation in accordance with their established investment objective. As such, each Fund is deemed to be an individual reporting segment under Topic 280 and is not part of a consolidated reporting entity. The results of the operations, as shown in the Statements of Operations and the financial highlights for each Fund is the information utilized for the day-to-day oversight of the Funds. Due to the significance of oversight and their role, the President/ Principal Executive Officer is deemed to be the Chief Operating Decision Maker.

Valuation of Investments

Pursuant to Rule 2a-5 under the 1940 Act, the Board has designated the Funds' investment adviser, Baillie Gifford Overseas Limited (the "Manager") as the valuation designee (the "Valuation Designee") to determine the fair value, in good faith, of securities and other instruments for which no readily available market quotation exists, subject to the Board's oversight.

Investments for which there are readily available market quotations are valued at market value. Equity securities listed on a securities exchange, market or automated quotation system (including equity securities traded over the counter) for which quotations are readily available, are valued at the last quoted trade price on the primary exchange or market (foreign or domestic) on which they are most actively traded on the date of valuation (or at approximately 4:00 p.m. Eastern Time if a security's primary exchange is normally open at that time), or, if there is no such reported sale on the date of valuation at the most recent quoted bid price.

Other securities for which current market quotations are not readily available (or for which quotations are not believed to be reliable due to market changes that occur after the most recent available quotations are obtained, or for any other reason), and all other assets, are valued at their fair value as determined in good faith by the Valuation Designee.

Generally, trading in foreign securities markets is substantially completed each day at various times prior to close of regular trading on the New York Stock Exchange. Occasionally, events affecting the value of equity securities of non-U.S. issuers not traded on a U.S. exchange may

occur between the completion of substantial trading of such securities for the day and the close of regular trading on the New York Stock Exchange, and such events may not be reflected in the computation of a Fund's net asset value.

The Valuation Designee utilizes a third-party pricing service for all equity securities, except those traded on Canadian, Latin American or U.S. exchanges, subject to certain minimum confidence levels, which applies a fair value adjustment that seeks to reflect changes in such securities' market prices since the close of the market on which the securities are traded. To the extent that securities are valued using this service, the securities will be classified as Level 2 securities in the fair value measurement framework described below.

Fair Value Measurement

GAAP provides guidance on fair value measurements and defines fair value as the price that a Fund would receive to sell an investment or pay to transfer a liability in a timely transaction with an independent buyer in the principal market, or in the absence of a principal market, the most advantageous market for the investment or liability. It establishes a single definition of fair value, creates a three-tier hierarchy as a framework for measuring fair value based on inputs used to value the Fund's investments, and requires additional disclosure about fair value. The hierarchy of inputs is summarized below:

- Level 1 unadjusted quoted prices in active markets for identical investments that the Funds have the ability to access
- Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 significant unobservable inputs (including the Trust's own assumptions in determining the fair value of investments)

For Level 1 inputs, the Funds use unadjusted quoted prices in active markets for assets or liabilities with sufficient frequency and volume to provide pricing information as the most reliable evidence of fair value.

The Funds' Level 2 valuation techniques include inputs other than quoted prices within Level 1 that are observable for an asset or liability, either directly or indirectly. This includes when a fair value adjustment is applied which seeks to reflect changes in foreign securities' market prices since the close of the market on which they are traded. Level 2 observable inputs may include quoted prices for similar assets and liabilities in active markets or quoted prices for identical or similar assets or liabilities in markets that are not active in which there are few transactions, the prices are not current, or price quotations vary substantially over time or among market participants. Inputs that are observable for the asset or liability in Level 2 include such factors as interest rates, yield curves, prepayment speeds, credit risk, and default rates for similar liabilities.

For Level 3 valuation techniques, the Funds use unobservable inputs that reflect assumptions market participants would be expected to use in pricing the asset or liability. Unobservable inputs are used to measure fair value to the extent that observable inputs are not available and are developed based on the best information available under the circumstances. In developing unobservable inputs, market participant assumptions are used if they are reasonably available without undue cost and effort.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The hierarchy classification of inputs used to value each Fund's investments at December 31, 2024 is disclosed at the end of each Fund's Portfolio of Investments.

Foreign Currency Translation

The accounting records of the Funds are maintained in U.S. dollars. Foreign currency amounts are translated into U.S. dollars at the applicable rate of exchange to determine the value of investments, assets and liabilities. Purchases and sales of securities and income and expenses are translated at the prevailing rate of exchange on the respective dates of such transactions. The Funds do not isolate that portion of net realized and unrealized gains and losses on investments resulting from changes in foreign exchange rates from the impact arising from changes in market prices. Such fluctuations are included with net realized and unrealized gain or loss from investments.

Net realized foreign exchange gains and losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, and the differences between the amounts of dividends, interest, and foreign withholding taxes recorded on the Funds' books and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in the value of assets and liabilities, other than investments in securities, resulting from changes in the exchange rates.

Securities Transactions and Investment Income

The Funds' securities transactions are recorded on the trade date. Realized gains or losses on sales of investments are determined on the basis of identified cost. Dividend income is recorded on the ex-dividend date. Non-cash income, if any, is included in investment income, with any non-cash income exceeding 5% of a Fund's total income stated separately on the Statements of Operations, and is recorded at the fair value of securities received.

Investment income, expenses (other than those specific to a particular class of shares), and realized and unrealized gains and losses on investments are allocated to the separate classes of shares based upon their relative net asset value on the date income is earned or expensed and realized and unrealized gains and losses are incurred.

U.S. Federal and Other Taxes

Each Fund intends to continue to qualify to be taxed as a "regulated investment company" under the provisions of the U.S. Internal Revenue Code of 1986, as amended (the "Code"), and as such will not be subject to U.S. federal income tax on income (including any net realized capital gains) which is distributed in accordance with the provisions of the Code to the Funds' shareholders. Therefore, no U.S. federal income tax provision is required.

Investment income received from investments in foreign jurisdictions may be subject to foreign withholding tax. Investment income is recorded net of any foreign withholding taxes, less any amounts reclaimable. The Funds may file withholding tax reclaims in certain jurisdictions to recover a portion of amounts previously withheld. Whenever possible, the Funds will attempt to operate so as to qualify for reduced tax rates or tax exemptions in those countries with which the United States has a tax treaty. Foreign taxes, if any, net of any reclaims, are recorded based on the tax regulations and rates that exist in the foreign markets in which the Funds invest.

As a result of several court cases in certain countries across the European Union ("EU"), some Funds may file European tax reclaims for previously withheld taxes on dividends earned in those countries. These additional filings are subject to various administrative proceedings by the local jurisdictions' tax authorities within the EU, as well as a number of related judicial proceedings. If a positive decision is reached and as such, reclaims become payable to the Funds, they are reflected as Windfall Tax Recovery within investment income in the Statements of

Operations and related receivables, if any, will be reflected within tax reclaims receivable in the Statements of Assets and Liabilities. If the associated cash is received, the Funds will generally follow, for tax purposes, IRS guidance in Notice 2016-10 and reduce the current year foreign taxes paid by the amount of the refund. When uncertainty exists as to the ultimate resolution of these proceedings and the likelihood of receipt of these EU reclaims, no amounts are reflected in the financial statements.

In the event that EU reclaims received by a Fund during a fiscal year exceed foreign withholding taxes paid by the Fund, and the Fund previously passed through to its shareholders foreign taxes incurred by the Fund to be used as a credit or deduction on a shareholder's income tax return, the Fund will enter into a closing agreement with the IRS in order to pay the associated tax liability on behalf of the Fund's shareholders.

In addition to the requirements of the Code, the Funds may also be subject to capital gains tax in India and potentially other foreign jurisdictions, on gains realized upon the sale of securities in India or other such foreign jurisdictions, payable upon repatriation of sales proceeds. Any realized losses in excess of gains in India may be

carried forward to offset future gains. Funds with exposure to Indian securities and potentially other foreign jurisdictions accrue a deferred tax liability for unrealized gains in excess of available loss carryforwards based on existing tax rates and holding periods of the securities.

The Funds are subject to tax accounting standards that provide guidance for how certain and uncertain tax positions should be recognized, measured, presented and disclosed in the financial statements. These standards require the evaluation of tax positions taken, or expected to be taken, in the course of preparing the Funds' tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained by the applicable tax authority. Tax positions not deemed to meet the "more-likely-than-not" threshold would be recorded as a reduction in a tax benefit or expense in the current year. Management has evaluated the application of these standards and has determined no liabilities for income tax related expenses are required in the financial statements of the Funds. The previous three tax year ends and the interim tax period since then, as applicable, remain subject to examination.

At December 31, 2024 for federal income tax purposes, the following Funds had capital loss carryforwards available to offset future capital gains. To the extent that these loss carryforwards are utilized, capital gains so offset will not be distributed to shareholders.

The differences between the components of distributable earnings on a tax basis and the amounts reflected in the Statements of Assets and Liabilities are primarily due to the differing book/tax treatment of realized losses on wash sales, mark to market income on securities categorized as PFICs, and certain corporate actions.

For the year ended December 31, 2024, the following reclassifications have been made on the Statements of Assets and Liabilities as a result of certain differences in the computation of net investment income and net realized capital gains under U.S. federal income tax rules and regulations versus GAAP, such as the treatment of foreign currency gains and losses, the redesignation of dividends, taxable overdistributions and net operating losses.

Dividends and Distributions to Shareholders

The Funds intend to distribute each year, as dividends, substantially all net investment income and net capital gains realized. All such dividends or distributions are credited in the form of additional shares of the Funds at net asset value on the ex-dividend date unless the shareholder elects to receive dividends and distributions in cash. Currently, the Funds' policies are to distribute net investment income and net capital gains on an annual basis. Such distributions are determined in conformity with U.S. federal income tax regulations, which may differ from GAAP.

For the years ended December 31, 2024 and December 31, 2023, the tax characters of the dividends paid were:

Note B — Investment Management and Other Services

The Funds are advised and managed by the Manager. The Manager, an investment adviser registered with the SEC, is a wholly owned subsidiary of Baillie Gifford & Co.

Under an investment advisory agreement between the Manager and the Trust on behalf of the Funds (the "Advisory Agreement"), each Fund pays the Manager an investment advisory fee, in arrears.

The advisory fee paid by each Fund under the Advisory Agreement is calculated and accrued daily on the basis of the annual rate noted below and expressed as a percentage of that Fund's average daily net assets.

The Manager has contractually agreed to waive its fees and/or bear expenses of the following Funds to the extent that such Fund's total annual operating expenses (excluding taxes, sub-accounting expenses and extraordinary expenses) exceed the amounts listed below. This contractual waiver will expire on April 30, 2025.

| Fund | Class | Expense Limitation |
|---|---------------------------------|--------------------|
| Baillie Gifford China Equities Fund | Class K and Institutional Class | 0.87% |
| Baillie Gifford Emerging Markets ex China Fund | Class K and Institutional Class | 0.87% |
| Baillie Gifford Health Innovation Equities Fund | Class K and Institutional Class | 0.65% |
| Baillie Gifford International Concentrated Growth Equities Fund | Class K and Institutional Class | 0.72% |
| Baillie Gifford International Smaller Companies Fund | Class K and Institutional Class | 0.90% |
| Baillie Gifford U.S. Equity Growth Fund | Class K and Institutional Class | 0.65% |

Fees waived or expenses reimbursed for all Funds are not subject to recoupment. These contractual agreements may only be terminated by the Board.

Baillie Gifford Funds Services LLC, a wholly-owned subsidiary of the Manager, serves as the sole distributor and principal underwriter of the shares of the Funds.

The Funds have adopted a Shareholder Servicing Plan providing that the Fund may pay the Manager, or any other entity that acts from time to time as the shareholder servicing agent with respect to a class of Fund shares, for services rendered and expenses borne in connection with the provision of services provided to Fund investors and/or the maintenance of shareholder accounts. For these services, the Funds pay the Manager a fee at the annualized rate of the Funds' average daily net assets attributed to each class of shares. The fee paid by Class 2 shares is 0.17%, Class 3 shares is 0.10%, Class 4 shares is 0.07%, and Class 5 shares is 0.02%. Class K and Institutional Class shares do not pay this fee.

With respect to Class K and Institutional Class shares, the Manager is responsible for providing certain administrative services to Fund shareholders as well as coordinating, overseeing and supporting services provided to Fund shareholders by third parties, including financial intermediaries that hold accounts with the Funds, pursuant to an Administration and Supervisory Agreement between the Manager and the Trust on behalf of each Fund.

Each Fund has adopted an Administration, Supervisory and Sub-Accounting Services Plan with respect to Class K and Institutional Class shares of each Fund, which authorizes each Fund to pay the Manager an Administration and Supervisory Fee quarterly, in arrears, with respect to Class K and Institutional Class shares at an annual rate of 0.17% of such Fund's average net assets.

Institutional Class shares bear expenses in connection with compensating financial intermediaries for sub-transfer agency and other services. Class K shares do not bear such expenses.

The Funds may enter into certain agreements with Financial Intermediaries that require payments for subtransfer agency services in excess of the Board approved cap on payments and/or reimbursements to Financial Intermediaries. In such instances the Manager will pay, out of its own profits, the difference between the amount due under the agreement with the Financial Intermediary and the cap on such payments and/or reimbursements approved by the Board.

The Bank of New York Mellon ("BNY") serves as the Funds' administrator and custodian. BNY Mellon Asset Servicing serves as the Trust's transfer agent, registrar and dividend disbursing agent.

Note E — Beneficial Ownership

Beneficial ownership, either direct or indirect, of more than 25% of the voting securities of a Fund creates a presumption of control under Section 2(a)(9) of the 1940 Act. As of December 31, 2024, the following Funds had one or more shareholders which beneficially owned 25% or more of the Fund's voting securities:

Baillie Gifford Developed EAFE Fund(2)

Baillie Gifford EAFE Plus All Cap Fund

Baillie Gifford Emerging Markets ex China Fund(1)

Baillie Gifford Global Alpha Equities Fund

Baillie Gifford Health Innovation Equities Fund(1)

Baillie Gifford International Concentrated Growth Equities Fund(2)

Baillie Gifford International Growth Fund

Baillie Gifford International Smaller Companies Fund

Baillie Gifford U.S. Equity Growth Fund⁽²⁾

Purchase and redemption activity of these accounts may have a significant effect on the operation of each Fund.

Note F — Commitments and Contingencies

Each of the Funds indemnifies the Trust's officers and each member of the Board for certain liabilities that might arise from the performance of their duties to the Fund. Additionally, in the normal course of business, each Fund enters into contracts that contain a variety of representations and warranties and which provide general indemnifications.

The Funds' maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, based on experience, the Funds expect the risk of loss to be remote.

Note G — Line of Credit

The Trust entered into a committed facility with BNY on May 1, 2017, renewed April 16, 2024, and expiring April 15, 2025 (unless renewed), which allows the series of the Trust to borrow up to \$75 million in total subject to minimum asset coverage requirements set out in the Credit

At December 31, 2024, Baillie Gifford International, LLC, a wholly owned subsidiary of the Manager, beneficially owned 25% or more of the Fund's voting securities and as a result may be deemed to control such Funds.

The Fund has two shareholders which each beneficially own 25% or more of the Fund's voting securities.

Agreement. Each such series may borrow money under this credit facility for the temporary funding of shareholder redemptions or for other temporary or emergency purposes.

In normal market conditions, borrowings are charged an interest rate of 1.25% per annum plus the greater of the Federal Funds Effective Rate or the Secured Overnight Financing Rate + 0.10%.

The Funds pay a share of a commitment fee on the portion of the facility which is undrawn. The commitment fee is 0.25% on undrawn amounts.

The rate payable at December 31, 2024 was 5.84% on any amounts drawn down. As at December 31, 2024, the Funds had no outstanding loan balances.

Note H — Principal Risks (unaudited)

The below is a selection of the Funds' principal risks. The Funds' full list of principal risks, including more commonly known risks, are further described within their respective prospectuses.

Investment Style Risk

The Manager actively makes investment decisions for the Funds through bottom-up stock selection. Accordingly, the Funds will have risk characteristics that differ from their benchmark indices. The Manager's judgments about the attractiveness, relative value, or potential appreciation of a particular stock may prove to be incorrect and cause a Fund to lose money or underperform compared to its benchmark index. There can be no assurance that the Manager's investment decisions will produce the desired results.

Growth Stock Risk

The prices of growth stocks may be based largely on expectations of future earnings, and their prices can decline rapidly and significantly in reaction to negative news. Growth stocks may underperform stocks in other broad style categories (and the stock market as a whole) over any period of time and may shift in and out of favor with investors generally, sometimes rapidly, depending on changes in market, economic, and other factors.

Long-Term Investment Strategy Risk

The Funds pursue a long-term investment approach, typically seeking returns over a period of several years. This investment style may cause a Fund to lose money or underperform compared to its benchmark index or other mutual funds over extended periods of time, and a Fund may not perform as expected in the long term. An investment in a Fund may be more suitable for long-term investors who can bear the risk of short- or medium-term fluctuations in the value of the Fund's portfolio.

Emerging Markets Risk

To the extent the Funds invest in emerging market securities, the Funds may be exposed to greater market, credit, currency, liquidity, legal, political, technical and other risks different from, or greater than the risks of investing in developed markets.

Geographic Focus Risk

Certain Funds expect to focus investments in a limited number of countries or geographic regions, and as a result may not offer the same level of diversification of risks as a more broadly global fund because these Funds will be exposed to a smaller geographic area. The performance of a fund that is less diversified across countries or geographic regions will be closely tied to market, currency, economic, political, environmental, or regulatory conditions and developments in the countries or regions in which the fund invests, and may be more volatile than the performance of a more geographically-diversified portfolio.

Non-Diversification Risk

A non-diversified fund may hold a smaller number of portfolio securities, with larger positions in each security it holds, than many other mutual funds. To the extent a Fund invests in a relatively small number of issuers, a decline in the market value of a particular security held by the Fund may affect its value more than if it invested in a larger number of issuers. The value of the Fund's shares may be more volatile than the values of shares of more diversified funds. Baillie Gifford China Equities Fund, Baillie Gifford Emerging Markets ex China Fund, Baillie Gifford International Concentrated Growth Equities Fund, Baillie Gifford Long Term Global Growth Fund and Baillie Gifford U.S. Equity Growth Fund are all non-diversified Funds.

Market Disruption and Geopolitical Risk

Geopolitical, environmental and other events may disrupt securities markets and adversely affect global economies and markets. These disruptions could prevent the Funds from implementing their investment strategies and achieving their investment objectives, and increase the

Funds' exposure to the other risks detailed in this Prospectus. Given the increasing interdependence among global economies and markets, conditions in one country, market, or region might adversely affect markets, issuers, and/or foreign exchange rates in other countries, including the U.S.

War, terrorism, public health crises, and other geopolitical events, such as sanctions, tariffs, trade disputes, the imposition of exchange controls or other cross-border trade barriers, have led, and in the future may lead, to increased short-term market volatility and may have adverse long-term effects on U.S. and world economies and markets generally. For instance, the 2022 Russian invasion of Ukraine and the sanctions that followed had immediate negative effects on global financial markets, sovereign debt and the markets for certain securities and commodities, such as oil and natural gas, and reduced the liquidity and value of Russian securities to zero or near zero. Similarly, terrorism in the U.S. and around the world has resulted in increased geopolitical risk.

Natural and environmental disasters, such as earthquakes and tsunamis, can be highly disruptive to economies and markets, adversely impacting individual companies and industries, securities markets, interest rates, credit ratings, inflation, investor sentiment, and other factors affecting the value of the Funds' investments. Similarly, dramatic disruptions can be caused by communicable diseases, epidemics, pandemics, plagues and other public health crises.

Note J — Subsequent Events

Events or transactions that occur after the financial statement date but before the financial statements are issued are categorized as recognized or non-recognized for financial statement purposes.

On September 24, 2024, the Board of Trustees of the Fund approved and adopted a Plan of Liquidation and Termination for Baillie Gifford Health Innovation Equities Fund, determining to close the Fund and redeem all outstanding shares on January 6, 2025 (the "Liquidation Date"). Prior to the Liquidation Date, the Fund sold down its portfolio of investments into cash.

On the Liquidation Date, pursuant to the Fund's Plan of Liquidation, the Fund redeemed all of its outstanding shares by distribution of its net assets to shareholders in amounts equal to the value of each shareholder's Fund investment. The Fund subsequently ceased operations.

Each of Baillie Gifford China A Shares Growth Fund, Baillie Gifford Health Innovation Equities Fund, and Baillie Gifford U.S. Discovery Fund were terminated as series of the Trust on January 27, 2025.

There were no other subsequent events identified between December 31, 2024 and the issuance of the Financial Statements.

Basis for Opinion

These financial statements are the responsibility of the Funds' management. Our responsibility is to express an opinion on the Funds' financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Funds in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement whether due to error or fraud

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of December 31, 2024, by correspondence with the custodian and brokers; when replies were not received from brokers, we performed other auditing procedures. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

We have served as the Funds' auditor since 2017.
