3. The composite is defined as: All portfolios with an Emerging Markets All Cap Equities mandate excluding investment in China.
4. The composite inception date is 31 Dec 21. The composite was created on 24 Feb 22.
5. Internal dispersion is calculated using the asset-weighted standard deviation of the gross returns of all accounts included in the composite for the entire year; it is not presented for periods less than one year or when there were fewer than five accounts in the composite at year end. The three-year annualized ex post standard deviation measures the variability of the composite and the benchmark gross returns over the preceding 36-month period, it is not presented for periods of less than three years.
6. Gross of fees performance returns are presented before management and custodial fees but after all trading expenses. Returns are presented net of withholding taxes on dividends, interest income and capital gains where applicable. Net of fees returns are calculated by deducting a model management fee of 0.067%, 1/12th of the highest management fee of 0.80%, from the monthly gross composite return. The highest fee currently charged for segregated portfolios included in this composite is 0.80% p.a. This may not necessarily represent the actual fee charged. The management fee and total expense ratio for the US Mutual Fund, which is included in the composite, are 0.72% on all assets and 0.87%, respectively. This may not necessarily represent the actual fee charged.
